Dr. Terrence Orr
Lake Tahoe Orthopedic Institute
1139 3rd Street
South Lake Tahoe, CA, 96150

Dear Dr. Orr,

I wanted to congratulate you on having been selected as the recipient of the **2010 USSA J. Leland Sosman Award**. In recognition of Doc Sosman and his endless commitment as a volunteer for the USSA, this award, given annually, is presented to a member of the USSA Physicians' Pool who has made tremendous contributions as a volunteer medical health care provider.

"Terry Orr was one of the founding physicians of the USSA Medical Pool and has been involved with the teams and the organizations since 1988. He has been named to the Winter Olympic Games as team physician in 2002, 2006 and just recently 2010 in Canada. He has been instrumental in the organizational development of the entire USSA Medical Program. Terry has contributed in so many ways that we are fortunate to have such a supportive team member who is passionate about the sport and so caring of our national team athletes. USSA is truly indebted to such a wonderful, kind and truly exceptional physician."

This award is given to an exceptional member of the "medical support team" who has provided outstanding medical coverage and service to USSA athletes.

Dr. J. Leland Sosman, known affectionately as 'Sos,' was a USSA volunteer leader and pioneer for over 50 years. His service to the USSA and FIS communities has truly been legendary. While not a formal member of the physicians' pool, Sos was known for his energy, persistence and passion for USSA sports. This award recognizes that individual of the medical community who best exemplifies these traits. There is no more fitting candidate than you to receive this award for your work on behalf of the USSA's athletes.

Again, our congratulations!

Sincerely,

UNITED STATES SKI AND SNOWBOARD ASSOCIATION
